

Programmable Electric Drip Coffee Maker with Glass Carafe

This programmable coffee maker features a 750ml transparent glass carafe and a permanent filter. It is equipped with an auto-shut off function, a pause feature, and a keep warm function.

Product Overview

Professional Performance for Daily Brewing

This programmable electric drip coffee maker is designed to streamline your morning routine with its automated features and high-capacity design. With a 750ml glass carafe and a user-friendly digital display, it offers precise control over brewing times. The inclusion of a permanent filter and a non-stick warming plate ensures consistent quality and easy maintenance for busy environments.
