

Propane Weed Torch with Extended Wand

This high-intensity propane torch is designed for effective weed control. It features a long wand, brass burner tip, and gas control valve for precise flame adjustment.

Product Overview

Professional Propane Weed Torch

This high-intensity propane weed torch is engineered for efficient and targeted vegetation control. Featuring an extended wand for improved reach and ergonomic comfort, it allows users to maintain a safe distance while clearing weeds. The integrated brass burner tip ensures consistent heat distribution, complemented by a precise gas control valve for flame regulation.

Technical Specifications

Design Features

- Extended reach wand
- Precise flame control valve
- Insulated comfort grip

Model Number	WB1025
Materials	Brass burner tip, Insulated handle
Fuel Source	Standard Propane Tank
