

# Pruning Shear and Folding Saw Garden Set

This garden set includes pruning shears and a folding pruning saw. The pruning shears have a bypass cutting action with ergonomic handles, while the folding pruning saw has a curved blade for efficient cutting and a safety lock mechanism.

DT2601

## Product Overview

### Professional Garden Maintenance Set

This versatile garden set includes a high-quality bypass pruning shear and a folding pruning saw, designed for efficient yard maintenance. The pruning shears feature ergonomic handles for comfortable, repetitive use, while the folding saw utilizes a curved blade geometry to maximize cutting power. Both tools are built for durability and safety, making them an essential addition to any professional landscaping or gardening toolkit.

## Technical Specifications

### Saw Features

- Curved blade for efficient cutting
- Safety lock mechanism
