

# PTC Ceramic Tower Heater

This tower heater uses PTC ceramic heating elements for efficient heating. It features wide-angle oscillation for even room coverage and safety features like overheat protection and a tip-over switch.

## Overview

### Efficient PTC Heating Solution

The PTC Ceramic Tower Heater is a high-performance space heating apparatus designed for rapid and consistent warmth. Its tower design facilitates wide-angle oscillation for even room coverage, making it ideal for professional environments. With integrated safety features such as automatic overheat protection and a tip-over switch, this heater ensures both efficiency and peace of mind during operation.

## Technical Specifications

### Power Output

**750 W**

Low Heat

**1500 W**

High Heat

### Available Settings

- Fan Only
- Low Heat
- High Heat

## Safety & Control

### Safety Certifications

Overheat Protection, Tip-over Switch

### Interface

Push-button control

## Features

### Product Capabilities

Oscillation • Adjustable Thermostat
