

# PTC Ceramic Tower Heater

This tower heater provides efficient space heating with its Positive Temperature Coefficient (PTC) ceramic heating elements. Its tower design ensures wide heat distribution, while safety features like overheat protection and a tip-over switch provide peace of mind.

## ADDITIONAL IMAGES

## Product Overview

### Efficient PTC Heating Performance

This PTC Ceramic Tower Heater offers a sophisticated heating solution for indoor environments, blending elegant design with high-efficiency performance. Utilizing advanced ceramic heating elements, it provides rapid, consistent warmth while prioritizing user safety through integrated overheating and incline cut-off protection. With user-friendly features like remote control and adjustable timers, it is an ideal energy-saving choice for homes and offices.

## Technical Specifications

Heating Element	High-efficiency PTC Ceramic
Timer Range	0.5 - 7.5 hours
Power Speeds	2
Heat Distribution	90 degree

## Safety & Maintenance

Safety Protections	Overheating Protection, Thermo Cutoff, Incline Cut-off Protection
Maintenance	Cleanable rear grille to collect indoor dust and hair

## Design & Convenience

### Control Options

- Soft touch design
- Infrared remote control
