

PTC Space Heater

This unit utilizes a PTC heating element, known for its self-regulating temperature characteristics, providing efficient and safe heating. The heater is designed for household use, offering a compact and portable solution for warming small to medium-sized rooms.

Product Overview

Efficient PTC Heating Technology

This PTC space heater offers a modern and safe solution for warming indoor environments. By utilizing Positive Temperature Coefficient technology, the unit provides self-regulating heat that ensures efficiency and energy management. It is designed to be a compact, portable heating companion for small to medium-sized rooms, prioritizing both performance and user safety.

Technical Specifications

Heating Element Type	PTC (Positive Temperature Coefficient)
Safety Features	Overheat Protection, Self-Regulating Temperature

Application

Primary Use

Household • Indoor Heating • Portable
