

Pure Car and Truck Carrier (PCTC) for Vehicle Transportation

This Pure Car and Truck Carrier (PCTC), also known as a Roll-on/Roll-off (RORO) ship, is designed for transporting vehicles. It features a multi-deck configuration to maximize cargo capacity.

Overview

Pure Car and Truck Carrier (PCTC)

The Pure Car and Truck Carrier (PCTC), often referred to as a Roll-on/Roll-off (RORO) vessel, is a specialized maritime transport solution engineered specifically for the global automotive industry. Featuring a multi-deck configuration, these vessels maximize cargo capacity for vehicles of various sizes, ensuring efficient and secure ocean transit. The design incorporates advanced loading ramps to facilitate rapid, streamlined vehicle handling at port facilities.

Vessel Characteristics

Vessel Classification	Pure Car and Truck Carrier (PCTC) / RORO
Deck Design	Multi-deck

Operational Features

Loading System	Integrated ramp system for Roll-on/Roll-off operations
Primary Application	Automotive Logistics, Vehicle Transportation, International Shipping
