

# Pure Sine Wave Power Inverter

This power inverter converts DC power to AC power using pure sine wave technology. It is suitable for solar power systems and other applications requiring a clean and reliable AC power source.

## Product Overview

### High-Performance Pure Sine Wave Inverters

These professional-grade pure sine wave inverters are designed to provide reliable, clean AC power conversion for a wide range of solar energy systems. With versatile wattage options ranging from 500W to 5000W, they effectively manage DC-to-AC conversion for sensitive electronic applications. The units ensure stable power delivery and are engineered for seamless integration into diverse off-grid and solar power infrastructure projects.

## Technical Specifications

### Output Waveform

Pure Sine Wave

### Waveform Types

- Pure Sine Wave
- Correction Wave

### Supported DC Input

- 12V DC
- 24V DC

### Available Wattage Range

500W, 1000W, 2000W, 5000W

### Rated AC Output

220 V

## Performance Metrics

### Standard Capacity Models

**500 W**

Entry Model

**1000 W**

Mid Range

**2000 W**

High Power
