

# Pure Sine Wave Solar Inverter

Pure sine wave inverters convert DC power from solar panels or batteries into AC power suitable for household appliances and electronics. They come in models with varying power capacities and multiple outlet types to accommodate different international standards.

## ADDITIONAL IMAGES

## Product Overview

### Professional Pure Sine Wave Solar Inverter

This high-performance pure sine wave inverter is expertly designed to convert DC power from solar panels or battery banks into stable AC electricity. Ideal for powering sensitive household appliances and electronic equipment, it ensures a clean energy supply for reliable operation. With broad international compatibility and various power capacities, it is a versatile solution for global energy needs.

## Technical Specifications

### Available Power Ratings

- 1000W
- 1500W
- 2000W
- 3000W
- 4000W
- 5000W
- 6000W

## Compatibility

### Supported Socket Standards

USA, Australia, Universal, Europe, Japan, UK, South Africa, France, Germany

## Certifications

### Certifications

CE • RoHS
