

PVC Coated Stainless Steel Cable Tie Banding Strap

This stainless steel cable tie banding strap features a black PVC coating. It offers acid-proof, corrosion resistance and strong tensile strength for fast and easy operation.

Product Overview

Durable PVC-coated stainless steel strap designed for reliable high-tension fastening.

Professional Cable Management Solution

These stainless steel banding straps are designed for secure and durable fastening in demanding environments. Featuring a protective black PVC coating, they provide superior resistance to corrosion, abrasion, and environmental weathering. These straps are ideal for indoor and outdoor applications, offering excellent tensile strength for bundling cables, securing pipes, and general industrial fastening.

Technical Specifications

Dimensions

Thickness (mm)	Width (mm)	Packing
1.2	8	20M/ROLL 400M/Carton
1.2	12	20M/ROLL 400M/Carton
1.2	16	20M/ROLL 400M/Carton
1.2	19	20M/ROLL 400M/Carton

Material Characteristics

Acid-proof, Corrosion Resistant, High Tensile Strength, PVC Coated

Flexible and adjustable banding solution for various industrial cabling needs.

Recommended Applications

- Cable bundling
- Pipe securing
- Industrial fastening
- Commercial & Residential installations
- Marine & Automotive environments
