

PVC Electrical Insulation Tape

This PVC electrical tape is ideal for insulation, protection, and binding of electrical wires and cables. It offers excellent resistance to abrasion, moisture, chemicals, and varying weather conditions.

Product Overview

Professional Electrical Insulation

This high-quality PVC electrical tape is engineered for the professional insulation, protection, and secure binding of electrical wires and cables. It provides excellent resistance against abrasion, moisture, chemicals, and diverse weather conditions, making it suitable for both indoor and outdoor environments. This reliable solution ensures safety and long-term durability for applications like wire splicing, cable bundling, and general electrical maintenance.

Technical Specifications

Model Identifier	ES 00962
Material	PVC (Polyvinyl Chloride)

Features

Performance Features	Abrasion Resistant, Moisture Resistant, Chemical Resistant, Weather Resistant
----------------------	---

Applications

Common Applications

- Wire splicing
- Cable bundling
- General electrical repairs
