

PVC Extrusion Line with Cable Twisting Machine

This product includes a PVC extruder line for manufacturing single core wire and flat H05 cables in sizes 30 to 200. A twisting machine is included for processing flexible cables with copper wires ranging from 0.1mm to 0.4mm in diameter.

Product Overview

Professional Wire & Cable Production Solution

This PVC extrusion line is engineered for high-precision manufacturing of single-core wires and flat H05 cables. The system integrates a versatile extrusion process with a specialized twisting machine, allowing for efficient production across a wide range of cable sizes. Designed for industrial cable manufacturing facilities, it ensures consistent output quality for flexible cables utilizing copper wires.

Technical Specifications

Available Extruder Models

- 30 Type
- 45 Type
- 65 Type
- 70 Type
- 90 Type
- 120 Type
- 150 Type
- 200 Type

Compatible Cable Types

Single Core Wire, Flat H05 Cable

Twisting Machine Specs

Copper Wire Diameter Range

0.1 mm

Minimum Diameter

0.4 mm

Maximum Diameter

Intended Application

Flexible Cable Processing
