

# PVC Film Vacuum Membrane Press for Door Panels

This PVC film vacuum membrane press is designed for pressing PVC film onto door panels. It features robust construction and precise controls for consistent results.

## Product Overview

### Professional PVC Membrane Press

This high-performance vacuum membrane press is engineered for precision application of PVC films onto door panels and complex woodworking profiles. It combines robust construction with refined pressure control to deliver consistent, high-quality finishes suitable for professional manufacturing environments. The system is designed for reliability and efficient power usage, making it an essential tool for high-volume door production.

## Technical Specifications

### Worktable Inner Size

- 2550 x 1100 mm
- 2550 x 1300 mm

Overall Size	5500 x 1400 x 1300 mm
Max. Working Thickness	50 mm

## Performance Metrics

### Rated Working Pressure

**-0.09 MPa**  
Pressure

### Power Requirements

**18.5 kW**  
Total Power

**8 kW**  
Actual Consumption

## Physical Properties

### Shipping Specifications

Dimension	Value
Packing Size	3320 x 1550 x 1450 mm
Volume	7.5 cbm
Net Weight	1100 kg
Voltage	Customized
