

PVC Pipe Wrapping Tape for Corrosion Protection

This PVC pipe wrapping tape provides a protective and insulating layer for pipes. It offers resistance to moisture, chemicals, and abrasion, making it suitable for indoor and outdoor applications.

Product Overview

Corrosion Protection Solution

This high-quality PVC pipe wrapping tape is engineered to provide a robust protective and insulating layer for various piping systems. It offers superior resistance against moisture, chemicals, and physical abrasion, ensuring long-lasting integrity in diverse environmental conditions. Designed for versatility, it conforms seamlessly to irregular surfaces for an airtight, secure seal in both indoor and outdoor maintenance tasks.

Technical Details

Model Codes

ES00966, ES00964

Applications

Primary Applications

- Corrosion prevention for metal pipes
- Sealing pipe joints
- Electrical insulation
- General plumbing maintenance

Performance

Key Performance Features

Moisture Resistant • Chemical Resistant • Abrasion Resistant • Conformable Design
