

Quartz Carbon Halogen Space Heater

This heater utilizes quartz, carbon, or halogen heating elements to provide efficient and rapid space heating. Its design features a protective grille to ensure safety during operation.

Overview

Efficient Quartz Carbon Halogen Heating

This space heater is engineered for rapid and reliable indoor warmth, utilizing advanced heating elements to provide immediate comfort. It features a stable, robust structure with a 90-degree oscillation function for wide heat distribution. Designed with safety in mind, it includes a tip-over switch and a protective grille, making it a dependable choice for various indoor environments.
