

Quartz Radiant Space Heater

This quartz radiant heater provides warmth through multiple heating elements. It features adjustable temperature control and a protective metal grill.

Product Overview

Quartz Radiant Space Heater

This quartz radiant space heater provides efficient and targeted indoor heating through advanced heating elements encased in a protective metal grill. Designed for safety and ease of use, the unit features a rotary knob for precise temperature control and dedicated rocker switches for power and mode selection. Integrated ventilation slots ensure optimal heat dissipation, making it a reliable solution for maintaining comfortable temperatures in indoor environments.
