

Quick Connect Radiator Hose

This radiator hose has quick connect fittings for easy installation. It is made from durable rubber to withstand high temperatures and pressures.

Product Overview

High-Performance Quick Connect Cooling Solution

This Quick Connect Radiator Hose is engineered for reliability and ease of use in automotive cooling systems. Utilizing a robust EPDM construction with knitted reinforcement, it offers exceptional resistance to ozone, coolants, oils, and environmental debris. The integrated quick-connect mechanism simplifies installation and maintenance, ensuring a precise, leak-free connection for optimal thermal management.

Technical Specifications

Operating Temperature

-40

Minimum Temperature

125

Maximum Temperature

Material Structure

EPDM/Polyester/EPDM, EPDM/Aramid/EPDM

Features & Compatibility

Resistance Capabilities

- Oil resistance
- Mud resistance
- Salt and road debris resistance
- Ozone resistance
- Coolant compatibility

Installation

Quick Connect System
