

# Quick Hitch Trailer Mover Attachment

This quick hitch trailer mover attachment is designed for easily moving trailers and other towable equipment. It features a standard 2-inch ball hitch and adjustable arms for compatibility with most trailers.

## ADDITIONAL IMAGES

## Product Overview

### Professional 3-Point Hitch Trailer Mover

This heavy-duty 3-point linkage tow bar attachment is designed to streamline trailer maneuvering on farms and industrial sites. Engineered for all-steel durability, it allows for easy hydraulic lifting of your trailer to reduce manual labor and prevent injury. Its versatile design supports standard 50mm tow hitches and offers compatibility with multiple tractor category systems.
