

# Quick Release Bicycle Seatpost Clamp

This quick release seatpost clamp enables easy, tool-free adjustments to bicycle seatpost height. Its lever mechanism ensures a secure and reliable hold, while the threaded bolt allows for fine-tuning of the clamping force.

## Product Overview

### Quick Release Seatpost Clamp

This quick release seatpost clamp is designed for seamless, tool-free adjustment of bicycle seatpost height. Engineered for durability, the clamp features a robust lever mechanism that ensures a secure and reliable hold during rides. The integrated threaded bolt allows for precise fine-tuning of the clamping force, making it a versatile addition to standard bicycle setups.

## Technical Specifications

Adjustment Type	Quick Release Lever
Material	Durable Metal
Compatibility	Standard Seatpost Diameters, Tool-Free Adjustment

## Features

### Key Benefits

- Tool-free height adjustment
- Secure lever locking mechanism
- Adjustable clamping force via threaded bolt
- Wear-resistant construction
