Product Overview

Professional Quick-Release Tubing Cutter

This high-performance tubing cutter is engineered for precision and efficiency in plumbing and HVAC applications. Designed for rapid operation, the quick-adjust button allows for fast adjustments, while the robust zinc alloy body ensures long-term durability. It features an integrated reamer and a spare cutter wheel stored in the handle, providing a comprehensive solution for clean and accurate tube cutting.

Technical Specifications

Capacity Range

3.18 mm

Minimum Capacity

28.58 mm

Maximum Capacity

Materials and Construction

Component Materials

Component	Material
Body	Zinc Alloy
Adjustment Knob	Aluminum Alloy
Cutting Wheel	9SiCr Steel
Reamer Blade	Carbon Steel

Key Features

Core Features

- Quick-adjust mechanism for fast operation
- Integrated reamer for burr removal
- Spare cutter wheel stored in handle
- Plastic storage cap included

Application Compatibility

Copper, Aluminum, Plastic, Thin-walled Stainless Steel
