

R1234YF Refrigerant Quick Coupler Set

This A/C quick coupler set allows connection of multiple hoses in R1234YF automotive air conditioning systems. The set includes both high-side (red) and low-side (blue) couplers for easy access in tight spaces.

Product Overview

Professional R1234YF Quick Coupler Set

This AC 90° quick coupler set is specifically engineered for R1234YF refrigerant systems, providing a reliable solution for maintenance and charging operations. Featuring a 90-degree connector design, these couplers allow for easy access in tight engine bays. Constructed from high-quality copper and aluminum, they ensure a secure, leak-free connection for automotive HVAC technicians.

Technical Specifications

Refrigerant Compatibility	R1234YF
