

R134a 90-Degree Snap Coupler

This A/C fast connector allows connection of multiple hoses. It is suitable for use in the automotive R134a air conditioning systems.

Product Overview

Professional R134a 90-Degree Snap Coupler

This 90-degree snap coupler is engineered specifically for R134a refrigerant systems, providing a reliable solution for automotive and HVAC/R maintenance. Featuring a robust construction of copper and aluminum, it ensures durability and leak-free performance during operation. The integrated snap-lock mechanism facilitates quick, secure connections, significantly streamlining service procedures for professional technicians.

Technical Specifications

Refrigerant Compatibility	R134a
Connector Type	90-degree 1/4" female thread
Material Composition	Copper, Aluminum
