

R134a AC Straight Quick Coupler Set

This R134A air conditioning fast connector allows connection of multiple hoses. The set includes color-coded, high and low-pressure couplers with a straight design for convenient connection and disconnection.

Product Overview

Professional R134a Quick Coupler Set

The R134a AC Straight quick coupler set is designed for efficient refrigerant handling and HVAC system maintenance. Featuring a durable construction of copper and aluminum, this set ensures a secure and leak-free connection for automotive AC systems and other R134a applications. The straight design allows for convenient connection and disconnection, making it an essential tool for professional technicians.
