Overview

High-Efficiency DC Refrigeration Compressor

This DC compressor is specifically engineered for light commercial refrigeration applications, offering reliable performance and energy efficiency. Designed to operate on R134a refrigerant, it supports 12V and 24V power systems, making it an ideal choice for mobile or off-grid cooling solutions. With a cooling capacity of 106W, this unit is perfectly sized for 180L DC refrigerators.

Technical Specifications

Cooling Capacity

106 W

Cooling Capacity

Voltage Compatibility	12V DC, 24V DC
-----------------------	----------------

Refrigerant	R134a
-------------	-------

Application

Recommended Fridge Size	180 L
-------------------------	-------

Compliance

Quality Certifications

CE • RoHS
