

R134a Refrigerant Manifold Gauge

This manifold gauge is designed for use with R134a refrigerant. It features high-precision pressure gauges and durable rubber tubes.

Overview

Professional R134a Refrigerant Manifold Gauge

This R134a Refrigerant Manifold Gauge is a robust and high-precision tool engineered for automotive and HVAC maintenance. It features a specialized anti-collision sheath and a metal-embedded valve design to ensure long-term durability in demanding work environments. With class 1.6 accuracy and high-strength rubber hoses, this manifold provides reliable pressure readings and consistent performance for professional technicians.

Technical Specifications

Supported Pressure Units

kg/cm² • PSI • BAR • kPa

Accuracy Class	1.6
Hose Diameter	12 mm
Refrigerant Compatibility	R134a

Construction & Durability

Key Design Features

- Special material anti-collision sheath
- Metal-embedded valve design
- High-strength rubber tubing
