

R134a Refrigerant Quick Coupler Set

This R134a quick coupler set is designed for automotive air conditioning systems. It includes high and low side couplers with color-coded caps for easy identification.

Product Overview

Professional R134a/R1234yf Adapters

This quick coupler set is engineered for professional automotive air conditioning maintenance and repair. Featuring a 90-degree angle design and durable metal construction, it provides reliable connections for R1234yf refrigerant systems. These high and low side adapters ensure secure operation and efficient service for HVAC&R technicians and mechanics.

Technical Specifications

Material

- Copper
- Aluminum

Refrigerant Compatibility
