Product Overview

Professional R134A Refrigerant Quick Couplers

This high-performance quick coupler set is specifically designed for R134A refrigerant systems, ensuring reliable and efficient maintenance. The set features color-coded knobs—red for high-pressure and blue for low-pressure—to prevent connection errors during operation. Constructed with durable materials for longevity, these couplers provide a secure, leak-free connection essential for automotive and HVAC service environments.

Technical Specifications

Key Features

- Color-coded knobs for identification
- Includes adapters for system compatibility
- Robust metal construction
- Secure locking mechanism

Compatible Refrigerant	R134A
Connection Type	High Pressure, Low Pressure, Leak-free

Industrial Compatibility

Suitable Industries

Automotive • Manufacturing • Construction • Pneumatic Applications • Hydraulic Applications
