

# R14 Carbon Zinc Battery

This R14 size C 1.5V carbon zinc battery is designed for general purpose applications. It is ideal for low-drain devices such as clocks, remote controls, and toys.

## Product Overview

### Reliable Power Solution

The R14 Carbon Zinc battery is engineered to provide consistent and long-lasting energy for everyday household and industrial devices. It features advanced anti-leakage and anti-explosion technologies to ensure safety and equipment longevity during use. This cost-effective power source is specifically optimized for high-performance applications, making it a dependable choice for both professional and consumer equipment.

## Technical Specifications

Battery Size	R14 (Size C)
Nominal Voltage	1.5 V
Key Performance Features	Anti-leakage, Anti-explosion, Long-lasting, Eco-friendly

## Applications

### Device Compatibility

- Radios
- Torches and Camping Lights
- Electric Toys
- Flashlights
- Multimeters
- Fire-Alarm Systems
