Product Overview

Reliable Industrial Power Source

The R175A is a robust, single-cylinder, horizontal, 4-stroke water-cooled diesel engine designed for demanding industrial and agricultural environments. Featuring a high-efficiency swirl combustion chamber, it offers dependable performance and consistent power output for a variety of machinery. Its compact and sturdy design ensures ease of maintenance and long-term durability in varied operating conditions.

Design Specifications

Specification	Detail
Model	R175A
Type	Single cylinder, horizontal, 4-stroke
Combustion System	Swirl combustion chamber
Bore x Stroke	70 x 70 mm
Displacement	0.269 Litres
