

R20 1.5V Dry Cell Battery

This is a size D, 1.5V dry cell battery. It should not be opened, recharged, or disposed of in fire.

Product Overview

High-Performance R20 Dry Cell Battery

The R20 1.5V Dry Cell Battery provides reliable, long-lasting power for everyday household and commercial devices. Designed with a robust plastic film shell and reinforced construction, it delivers consistent energy output for essential appliances. This unit is ideal for applications requiring standard 1.5V power, ensuring dependable performance when you need it most.

Technical Specifications

Voltage	1.5 V
Discharge Duration Range	250 - 750 minutes
Testing Standard	3.9 ohm continuous discharge to 0.9V

Physical Characteristics

Size Classification	R20 / UM-1 / D-Size
Materials	Plastic Cap, Iron Sheet Base, Plastic Film Shell

Applications

Common Use Cases

- Flashlight lighting
- Gas water heaters
- Gas stoves
- Radio power supply

Safety Information

Operational Hazards

- Do not open battery
- Do not dispose of in fire
- Do not attempt to recharge
- Do not insert with reverse polarity
- Keep away from children
