Product Overview

Reliable Power Solution

The R20M Dry Cell Battery is a high-performance power source designed for consistent and long-lasting energy delivery. Featuring a durable construction with a metal jacket, top plastic cap, and bottom iron sheet, it is built for stability and safety. This battery is ideal for a wide range of household and professional applications, ensuring your devices operate effectively when needed.

Technical Specifications

Discharge Capacity

250 min

Minimum Discharge Time

750 min

Maximum Discharge Time

Working Voltage

1.5 V

Test Conditions

3.9 ohm continuous discharge to 0.9V

Design and Construction

Battery Format

Cylinder

Packaging

2 pieces per shrink wrap

Key Features

Metal Jacket, Plastic Top Cap, Iron Bottom Sheet, Extra Resistent

Applications

Recommended Devices

- Flashlight lighting
- Gas water heaters
- Gas stoves
- Radio power supplies
