

R22 Refrigeration Manifold Gauge

This manifold gauge is designed for use with R22 refrigerant. It features high-precision pressure gauges with class 1.6 accuracy and a metal-embedded valve for increased strength.

Overview

Professional HVAC Refrigeration Manifold

This R22 Refrigeration Manifold Gauge is engineered for high-precision HVAC maintenance and diagnostics. It features a robust design with an anti-collision sheath and metal-embedded valves to withstand demanding field environments. With Class 1.6 accuracy and high-strength 12mm rubber tubing, this tool ensures reliable pressure monitoring for professionals.

Technical Specifications

Compatible Refrigerant

R22

Accuracy Class

1.6

Hose Diameter

12 mm

Construction & Design

Design Features

- Anti-collision protective sheath
- Metal-embedded valve construction
- High-strength rubber tubing
- Dual pressure gauge configuration

Measurement Units

Supported Pressure Units

kg/cm², bar, PSI, kPa
