

R410A High-Efficiency Air Conditioner

This is a high-efficiency R410A air conditioner. It operates on a 208-230V power supply at 60Hz and is suitable for both residential and commercial applications.

General Overview

High-Efficiency Cooling Performance

This high-efficiency air conditioner utilizes R410A refrigerant to provide optimal cooling performance for diverse environments. Engineered for reliability, it integrates advanced technology to maximize energy savings while maintaining consistent operational standards. It is a versatile climate control solution suitable for both residential and commercial applications.

Electrical Specifications

Power Supply	208-230V
Frequency	60 Hz

Performance Features

Refrigerant Type	R410A
Key Attributes	High Efficiency, Energy Saving, Commercial Grade, Residential Compatible
