

R600a Refrigeration Compressor

This hermetically sealed compressor is designed for refrigeration applications using R600a refrigerant. It features robust construction for durability and reliable performance, making it suitable for refrigerators, freezers, and other cooling systems.

Product Overview

High-Efficiency Refrigeration Compressor

This hermetically sealed compressor is engineered specifically for refrigeration applications utilizing R600a refrigerant. Designed for durability and consistent performance, it is an ideal solution for refrigerators, freezers, and various cooling systems. The unit features robust construction to ensure longevity and is optimized for both efficient cooling and quiet operation.

Technical Specifications

Compatible Refrigerants	R600a, R134a
Model Identifier	GS091

Installation & Features

Key Design Features

- Hermetically sealed enclosure
- Robust construction for durability
- Quiet operation profile
- Includes mounting brackets

Installation Accessories	Yes
