Product Overview

Reliable Power Solution

These R6P AA 1.5V carbon zinc batteries are engineered for consistent performance in low-drain electronic devices. Designed with environmental responsibility in mind, they are completely free of mercury and cadmium. This heavy-duty power source is an ideal choice for everyday household and office equipment requiring stable, long-term energy.

Technical Specifications

Battery Type	Carbon Zinc
Voltage	1.5 V
Size Standard	AA (R6P)

Compliance & Quality

Certification ISO9001:2015	
Environmental Standards	0.00% Mercury Free, 0.00% Cadmium Free
Patent Registration	ZL 200530106334.9

Packaging & Usage

Typical Applications

- Remote controls
- Clocks
- Toys
- Low-drain devices

Standard Packing	4pcs/shrink
