

Racing Seat with Harness Slots

This racing seat is designed for enthusiasts seeking optimal support and safety. It features a lightweight, durable construction with integrated harness slots and reinforced side bolsters.

Product Overview

Professional Performance Seating

The SP8 Racing Seat is engineered for high-performance driving environments, offering a blend of safety, support, and ergonomic comfort. Constructed with a lightweight yet highly durable frame, it provides the essential lateral stability required during high-speed maneuvers. Featuring integrated harness slots and flame-retardant upholstery, this seat is an ideal choice for dedicated track enthusiasts, competitive racers, and professional sim racing setups.
