

Rack Mountable Professional Television Component

Professional-grade television component designed for integration into advanced audio-video systems. It features a front-panel display, intuitive control buttons, and rack-mountable design for easy installation.

Overview

Professional Television Integration

This professional-grade television component is specifically engineered for integration into advanced audio-video broadcast and commercial systems. It features a rack-mountable design to ensure efficient space usage and easy installation in standard equipment cabinets. Equipped with an intuitive interface, it provides reliable control for digital video environments.

General Specifications

Model Identifier	GC 1890D
Device Type	Digital Video Component
Industry Application	Broadcast, Commercial, Professional AV

Technical Features

Front Panel Indicators

- Power Indicator
- Video Signal Status
- Alarm Notification
- Digital Lock Indicator

Control Interface

- Menu Navigation
- Manual Control Buttons

Design and Mounting

Chassis Type	Rack Mountable
Onboard Display	Yes
