

Radiant Infrared Heater

This infrared heater is designed for efficient and directional heating. It features a robust metal construction with a perforated grill for safety and even heat distribution.

Overview

Efficient Radiant Heating

This radiant infrared heater provides a powerful and directional heating solution suitable for various environments. Designed with a high-performance golden tube heating element, it ensures rapid and even warmth distribution. Its robust, wall-mountable design and IP65 waterproof rating make it a versatile choice for both indoor and outdoor applications.

Technical Specifications

Power Output

2500 W

Heating Power

Waterproof Rating

IP65

Voltage

AC 220-240V

Frequency

50/60Hz

Heating Element Type

Golden Tube

Heat Settings

2

Physical Dimensions

Product and Packaging Dimensions

Item	Dimensions (mm)
Product Size	945 x 162 x 105
Single Box	980 x 180 x 150
Carton Size	995 x 380 x 320

Installation & Connectivity

Power Cord Details

- Black rubber cord
- 3 x 1mm² gauge
- 1.7m total length
- 1.5m exposed length

Mounting Type

Wall-mounted
