

Rainproof Hoist Light Industrial Pushbutton Switch

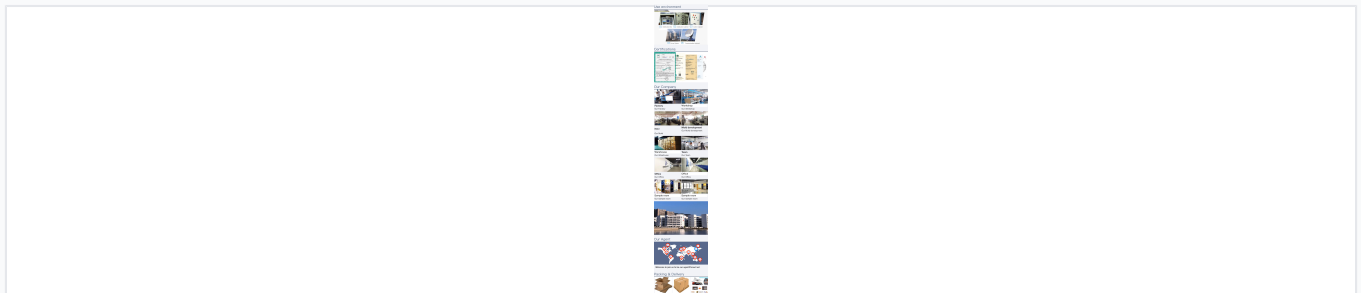

This rainproof pushbutton switch is designed for hoist and light industrial applications. It features a robust construction for durability in demanding environments.

ADDITIONAL IMAGES

Product Overview

Engineered for reliable performance in harsh industrial environments like distribution boxes and control stations.

Robust Industrial Control

The XDL21-EWL3462 series push button switches are designed for demanding control circuits, handling AC voltages up to 660V and DC voltages below 400V. Engineered for durability, these switches utilize high-grade anti-flam plastic and zinc alloy with specialized silver alloy contacts to resist electrical erosion. Their rainproof construction ensures reliable operation in industrial environments such as distribution cabinets and heavy machinery control.

Technical Specifications

Rated Insulation Voltage	600 V
Conventional Heating Current	10 A
Insulation Resistance	e5M©
Contact Resistance	d25h©
Withstand Voltage	AC 2.5KV/min

Mechanical Performance

Mechanical Life

- Pushbutton: 1,000,000 cycles
- Selector switch: 500,000 cycles

Electrical Life

- Pushbutton: 5,000,000 cycles
- Selector switch: 250,000 cycles
