

Ratchet Terminal Crimping Tool for Non-Insulated Terminals

This ratchet terminal crimping tool is designed for non-insulated terminals and B-type connectors. It is suitable for a range of wire gauges: AWG 22-10 (22-18, 16-14, 12-10) and DIN 1.5, 2.5, 4-6mm².

Product Overview

Professional Ratchet Crimping Solution

This professional-grade ratchet terminal crimping tool is specifically engineered for non-insulated terminals and B-type connectors. It features a reliable ratchet mechanism that ensures consistent crimping pressure for secure and long-lasting electrical connections. Designed for versatility, the tool supports a wide range of wire gauges, making it an essential utility for electrical maintenance and assembly projects.

Technical Specifications

DIN Metric Compatibility

- 1.5 mm²
- 2.5 mm²
- 4-6 mm²

Supported Terminals

Non-Insulated Terminals • B-type Connectors

AWG Compatibility

22-18 AWG, 16-14 AWG, 12-10 AWG

Tool Mechanism

Ratchet Type
