Overview

The WM-5000ZG system featuring live fingerprint identification and dual-mode localization.

Real-Time Security Management

This advanced guard tour system provides a comprehensive solution for monitoring and managing security personnel patrols in real-time. Designed for durability and precision, it features GPS and Beidou dual-mode localization for accurate tracking and live fingerprint identification to ensure guard accountability. With 4G connectivity, it enables immediate data transmission, remote parameter updates, and voice communication, making it an essential tool for effective facility and perimeter security.

Core Features

Fingerprint Verification Modes

- Close
- Once Verify
- Multiple Verify

Key Technologies

4G Connectivity, GPS/Beidou Localization, Biometric Authentication, Real-time Data Upload, Voice Functionality

Performance & Durability

Ingress Protection

IP67

Battery Capacity

3400 mAh

Capacity

Data Processing Speed

12000 pieces/min

Advanced Functionality

Safety & Alert Features

- SOS Emergency Button
- Impact Detection
- Man-down Alarm
- Pedometer
- Alarm Clock

Communication

- 4G HD Voice Call
- Custom Voice Task Prompts
- Operating Voice Prompts
