

Rear Window Glass with Hardware for SUVs

This rear window glass is designed for SUV models. It includes the necessary hardware and plastic parts required for installation.

Product Overview

Premium Tempered Rear Window Glass

This high-performance tempered rear window glass is engineered for superior safety, featuring advanced manufacturing processes that create a pre-compressive stress layer for increased impact strength. Integrated heating elements allow for rapid defrosting and mist removal, ensuring clear visibility in cold weather conditions. Designed for durability and passenger protection, the glass shatters into small, obtuse-angled particles upon impact, minimizing the risk of injury.

Technical Specifications

Defrosting Temperature

40 °C

Min Heating Temperature

75 °C

Max Heating Temperature

Key Features

Tempered Glass, Heating Wire Integrated, Impact Resistant, Defrosting Function

Compliance and Safety

Safety Characteristics

- Honeycomb-like breakage pattern for safety
- Impact strength 3-10x higher than ordinary glass
- Obtuse angle fragmentation

Vehicle Compatibility

Compatibility

Toyota Highlander/Kluger 5D SUV (2014-)
