

Recessed Handle for Electronic Cases

Recessed handle designed for electronic cases. Features chrome-plated steel construction, a comfortable black rubber grip, and multiple mounting holes for secure attachment.

Product Overview

Professional Recessed Handle

This recessed handle is specifically engineered for electronic cases, providing a secure and ergonomic grip for transport. Constructed from durable chrome-plated steel, it offers robust performance for heavy-duty applications. The design includes a comfortable black rubber grip and multiple mounting points to ensure a reliable and stable attachment to monitors and computer peripherals.
