

Recessed In-Ground Uplight

This recessed lighting fixture is designed for professional applications. Its cylindrical housing with a protective grill is suitable for in-ground or in-floor installation, providing upward-directed illumination.

Product Overview

Professional Recessed Uplight

This recessed in-ground uplight is designed specifically for demanding professional lighting applications. Featuring a robust cylindrical housing and a durable protective cover, it is built to provide reliable upward-directed illumination in outdoor or damp environments. Its weather-resistant construction ensures longevity and ease of maintenance, making it an ideal choice for high-quality architectural installations.
