

Recessed LED Grille Lamp - 4 x 14W

This grille lamp is designed for recessed ceiling installation, providing efficient and uniform illumination. It utilizes four LED T5 tubes, each consuming 14W, and features a metallic grille for glare control.

Product Overview

Professional Recessed Grille Lighting

This recessed LED grille lamp is designed for high-efficiency indoor illumination, making it an ideal choice for office spaces and commercial environments. Featuring a robust metallic grille, the unit provides excellent glare control while maintaining a sleek, professional aesthetic. Equipped with four 14W LED T5 tubes, it offers a reliable, energy-efficient lighting solution for modern interiors.
