Product Overview

Professional Tie-Down Solution

This recessed pan D-ring with mounting plate is engineered for secure cargo lashing in trailers, trucks, and various transport vehicles. Its recessed design ensures a flush surface when not in use, which helps prevent tripping hazards and maximizes usable floor space. Built for durability, this component provides a reliable and stable anchor point for heavy-duty tie-down applications.

Technical Specifications

Design Features

Recessed Pan • Flush Finish • Mounting Plate Included

Installation Benefits

- Flush surface prevents tripping
- Stable mounting surface
- Easy installation process

Application

Trailer Lashing, Cargo Tie-Down, Vehicle Transport
