

Rechargeable 12-inch Oscillating Fan with LED and Radio

This portable fan features a 12-inch oscillating head and a rechargeable sealed lead-acid battery. It also includes bright LED lights, an FM radio, and a USB/SD card reader for MP3 playback.

Product Overview

Versatile Emergency Solution

This 12-inch oscillating fan is a multifunctional power-ready solution designed for emergency preparedness and portable comfort. Combining active cooling with integrated entertainment via an FM radio and MP3 player, it ensures utility during power outages. With high-brightness LED lighting and robust battery protection systems, it serves as a reliable emergency light and fan combination for diverse operational environments.

Technical Specifications
