

Rechargeable 270-Degree Emergency Light

This rechargeable emergency light provides 270-degree illumination. It features both a fluorescent tube and a spotlight, encased in a red plastic housing with a convenient carrying handle.

Product Overview

Professional Emergency Lighting Solution

The TK-396 is a versatile, rechargeable emergency light designed for reliability during power outages. It features a unique 270-degree illumination angle, combining dual 6W fluorescent tubes for broad area lighting and a focused 6V spotlight. With built-in overcharge and overdischarge protection, this unit ensures safety and longevity for both indoor and outdoor professional applications.
