

Rechargeable 360-Degree Camping Lantern

This camping lantern features a rechargeable sealed lead-acid battery and a 7W fluorescent tube. It provides 360-degree light distribution and includes a plastic handle that doubles as a stand.

Product Overview

Professional Camping Lantern

This rechargeable 360-degree lantern provides reliable omnidirectional illumination for both indoor and outdoor environments. Designed for convenience, it features an integrated handle and stand, making it ideal for camping, hiking, or as an emergency light source. The robust construction includes built-in protective circuitry to ensure long-term durability and safety during operation.
