

Rechargeable 600 Lumen LED Work Light

This rechargeable LED worklight delivers 600 lumens of bright, white light with a 10W power consumption. It is powered by a rechargeable battery, offering cordless operation for convenient use in various locations.

Product Overview

Professional Cordless Work Lighting

This rechargeable LED work light features high-efficiency 10W COB technology to deliver a bright 600-lumen output for demanding tasks. Designed with a robust ABS plastic housing combined with a durable metal handle and bracket, it ensures long-lasting performance in any workspace. The integrated rechargeable lithium-ion battery provides portability and ease of use for mobile professional applications.

Performance Metrics

Key Specifications

600 lm
Brightness

10 W
Power Consumption

2200 mAh
Battery Capacity

Technical Details

Runtime	1.2 - 1.5 hours
Battery Voltage	3.7 V
Included Adapter	5V / 500mAh

Construction & Design

Design Features

- Adjustable handle and bracket
- Ergonomic foam grip
- Cordless operation
- COB LED technology

Material Composition	ABS Plastic, Metal
